

Overview

Blue Altitude provides a range of auditing support services, which are designed and tailored to support customers operational needs who require short or long-term auditing support under an agreed scope of work.

Auditing Expertise

We are experts in our field, providing both knowledge and experienced based auditing techniques. Focusing on providing *quality of service*, agreed *milestones*, and providing achievable *deliverables* for customers.

Our expertise includes auditing standards:

- ISO 9001:2015, 14001, 27001
- AS9100 Rev D, AS9110 Rev C, AS9120 Rev B
- EASA Regulations Part 21, Part M, Part 145 and Part 147
- Other EASA regulatory requirements

Types of Audit

For customers who are already certificated to the applicable standard or regulation;

1st Type – Internal Audit: an internal audit of the customer's organisation. Accomplished in accordance with the approved audit schedule / plan to the criteria specified by the applicable ISO standard or EASA regulation section.

2nd Type – External Audit: an external audit of the customer's suppliers. Accomplished in accordance with the approved audit schedule / plan to the criteria specified by the applicable service level agreement or contract of services between both parties.

Other Audits – for organisations seeking to become or add to their existing certification / approvals to meet the applicable standard or regulation;

Gap Analysis: review of the organisation against the specific standard or regulation they wish to become certified or approved to and provide guidance on meeting the specific compliance.

Continued Support: provide continued support until successfully meeting the applicable standard or regulation
